WORK BACKGROUND

JUNIOR FULL STACK (MERN) JAVASCRIPT DEVELOPER

UBIQUM CODE ACADEMY september 2019 - february 2020

Intensive full-time coding bootcamp, structured as an Agile work enviroment, using "Learn By Doing" methodology.

I have developed the following projects:

-MYtinerary.com, a travel mobile application: it was built in the MERN (MongoDB, Express, React and Node) architecture, and I developed dynamic front-end UI elements, a server environment, and a database

-A Bookstore: to build this single page application I have used React CDN links ,CSS and Fancybox

-TGIF, a web application about the US Congress: it was built with JavaScript, JSON, APIs, and Bootstrap

-Northside Youth Soccer League, a website developed for a Soccer team: it was created using HTML and CSS

TRANSPORT MANAGER

MRW Sant Sadurní d'Anoia. | 2005-2019

My tasks were the organization of routes, loads and courier staff; and customer service and arrangement of pickups and new deliveries.

EDUCATION BACKGROUND

CET PENEDES

CURS IFCD0210 (590h) Application development with web technologies
HTML5 , CSS3, JS, PHP i MySQL - Febrer 2022 - Octubre 2022
